RE: Outstanding School Real Estate License Examination Performance

Dear Mr. Gallagher:

During the July 1, 2006 - June 30, 2007 annual reporting period, Superior School of Real Estate compiled a real estate license examination performance record of 80% or higher. Of 66 schools with six or more students tested, your school was one of only 10 schools to reach this level of performance. The overall performance for all first-time examination candidates was 67%.

The Real Estate Commission wants to congratulate Superior School of Real Estate for this achievement. We recognize that to have your students perform at such a level on the license examination requires a combination of high quality instruction and high course completion standards. Your instructors and the administrative officials responsible for program oversight are to be commended for their successful efforts.

We wish you continued success in your future real estate education programs.

Respectfully,

Lisa R. McQuillen  
Licensing and Education Officer
